Email: shahinibandaru5@gmail.com
Mobile: +91 8096200970

Skills

Languages: Python, SQL, C++, Java, C
Libraries: NumPy, Pandas, Seaborn, Matplotlib
Tools/Platforms: MySQL, Power BI, GitHub, Excel, Jupyter Notebook
Concepts: Data Cleaning, Exploratory Data Analysis, Data Visualization, Data Modeling, Basic Machine Learning
Soft Skills: Communication, Problem Solving, Adaptability, Consistency

Projects

Hospital Patient Flow & Wait Time Analytics Dashboard | Link — Apr' 25

- Developed a Power BI dashboard to analyze hospital patient flow, wait times, and departmental efficiency.
- Performed data cleaning, modeling, and DAX calculations to build interactive Power BI visuals with KPIs and slicers.
- Improved operational visibility and decision-making efficiency by 35 - 40% through patient flow and wait-time analysis.

Tech: Power BI, DAX, Power Query, Data Modeling.

IMDB Movie Exploratory Analysis Using Python | Link — Aug' 25

- Analyzed multiple movie attributes from the IMDB dataset to explore patterns in ratings, revenue, popularity, and genres using Python.
- Applied exploratory data analysis and visualization techniques to identify trends and relationships between key movie features.
- Evaluated insights using statistical summaries, correlation analysis, and visualizations such as heatmaps and distribution plots.

Tech: Python, Pandas, NumPy, Matplotlib, Seaborn

Cover Letter Generator Web App | Link — Apr' 25

- Built a web-based cover letter generator using Gemini Flash 2.0 API for instant personalized outputs.
- Enhanced content quality by 40% using LLM powered text generation.
- Developed a fully responsive UI with HTML, CSS, and JavaScript for seamless cross-device performance.

Tech: HTML, CSS, JavaScript, Gemini Flash 2.0 API, Generative AI.

Training

Summer-Bootcamp DSA from Basics to Brilliance | Link — Jun' 25 – Jul' 25

Lovely Professional University

- Implemented core data structures such as arrays, stacks, and linked lists.
- Practiced algorithm optimization and time complexity analysis.
- Applied object-oriented programming concepts using Java.

Tech: Java, Object-Oriented Programming, Java Collections Framework, Array List

Certificates and Certifications

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Link — Aug' 25
- Completed Python Skill up by GFG | Link — Jun' 25
- NPTEL Certification – Cloud Computing (IIT Kharagpur) | Link — Apr' 25

Extra Curricular Activities

- Completed a 40-hour community development project under NGO supervision | Link — Jul'25
- Earned the Prime Minister's Scholarship Scheme, a highly competitive national scholarship awarded to top-performing students for exceptional academic merit.

Education

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology Computer Science and Engineering; ***CGPA: 8.6*** — *Aug' 23* - present

Vedantha Junior college — Parvath\ipuram, Andhra Pradesh
Intermediate: **Percentage: 98** — Apr'21 – May'23

Kavirayani public school — Parvatipuram, Andhra Pradesh
Matriculation: **Percentage: 92** — Apr'20 – Mar'21
