SKILLS

- **Languages:** C, C++, Java, Python, SQL
 • **Libraries:** NumPy, Pandas, Seaborn, Matplotlib
 • **Tools/Platforms:** MySQL, Power BI, GitHub, Excel, Jupyter Notebook
 • **Concepts:** Data Cleaning, Exploratory Data Analysis, Data Visualization, Data Modeling, Basic Machine Learning
 • **Soft Skills:** Communication, Problem Solving, Adaptability, Consistency

PROJECTS

- Hospital Patient Flow & Wait Time Analytics Dashboard | [Link](#)**
Aug' 25
 - Developed a Power BI dashboard to analyze hospital patient flow, wait times, and departmental efficiency.
 - Performed data cleaning, modeling, and DAX calculations to build interactive Power BI visuals with KPIs and slicers.
 - Improved operational visibility and decision-making efficiency by 35-40% through patient flow and wait-time analysis.**Tech:** Power BI, DAX, Power Query, Data Modelling
- IMDB Movie Exploratory Analysis Using Python | [Link](#)**
Apr' 25
 - Analyzed multiple movie attributes from the IMDB dataset to explore patterns in ratings, revenue, popularity, and genres using Python.
 - Applied exploratory data analysis and visualization techniques to identify trends and relationships between key movie features.
 - Evaluated insights using statistical summaries, correlation analysis, and visualizations such as heatmaps and distribution plots.**Tech:** Python, Pandas, NumPy, Matplotlib, Seaborn
- Cover Letter Generator | [Link](#)**
Apr' 25
 - Built a web-based cover letter generator using Gemini Flash 2.0 API for instant personalized outputs.
 - Enhanced content quality by 40% using LLM powered text generation.
 - Developed a fully responsive UI with HTML, CSS, and JavaScript for seamless cross-device performance.**Tech:** HTML, CSS, JavaScript, Gemini Flash 2.0 API, Generative AI

TRAINING

- Summer-Bootcamp DSA from Basics to Brilliance | [Link](#)**
Jul' 25
Lovely Professional University
 - Implemented and analyzed core data structures including arrays, stacks, and linked lists to solve fundamental programming problems efficiently.
 - Practiced algorithm optimization techniques and performed time complexity analysis to improve program efficiency.
 - Applied object-oriented programming (OOP) concepts using Java to develop structured and modular programs.**Tech:** Java, Object Oriented Programming, Java Collections Framework, Array List

CERTIFICATES AND CERTIFICATIONS

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Infosys | [Link](#)
Aug' 25
 • Completed Python Skill Up | GFG | [Link](#)
Jun' 25
 • Cloud Computing (IIT Kharagpur) | NPTEL | [Link](#)
Apr' 25

EXTRA-CURRICULAR ACTIVITIES

- Community Development Project (NGO Supervised) | [Link](#)**
Jul' 25
 - Completed a 40-hour community development project under NGO supervision, contributing to social welfare Initiatives.
- Prime Minister's Scholarship Scheme**
- Earned the Prime Minister's Scholarship Scheme, a highly competitive national scholarship Awarded to top performing students for exceptional academic merit.

EDUCATION

- Lovely Professional University**
Phagwara, Punjab
 - Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.4**
Aug' 23 – present
- Vedantha Junior College**
Parvathipuram, Andhra Pradesh
 - Intermediate; **Percentage: 98**
Jun'21 – Mar'23
- Kavirayani Public School**
Parvathipuram, Andhra Pradesh
 - Matriculation; **Percentage: 92**
Apr'20 – Mar'21
